Affordable Luxury

the event palette

Natalie and Susan have been in the wedding services business for over 30 years. We formed our company after working together for a couple of years planning weddings. We know weddings can be stressful, and we love taking that stress and kissing it goodbye for you. Remember how you felt the day you got engaged? We want that for you all over again.

Flowers are symbols of love...

they are the pretties for
your wedding day. Tying
everything together &
giving your ceremony
and reception the style
you want. They are a
reflecion of you and they
should represent your
style ~ whether you love
roses or are partial to
wildflowers, they will
compliment your day and
add to the ambiance.
Flowers inspire romance
and they are the perfect
touch to your perfect day
